

# KYC & eKYC

## AI-Powered Automated Risk Monitoring

### One Platform to Know & Trust Your Customers From Onboarding to Reverification

Acuant Compliance automates your KYC process to quickly find good customers, meet regulatory requirements and beat fraudsters. We address your use case, business needs and level of risk to adjust your process with the right balance of security and convenience. Our Trusted Identity Platform provides a holistic view to risk score your prospects now and over time. Acuant's industry leading global identity verification capabilities, AML monitoring and our patented eDNA™ trust scoring engine are all easily accessible via our Orchestration Layer. We provide all you need in one place, one API, one contract.

**90%**

Reduction in  
Onboarding Fraud

#### Powerful Automation with AI

Acuant's automation of your standard transactions with case management for the exceptions and standard reporting, keeps your business growing and your team and auditors on track.

#### Accurate Risk Reduction

Create and risk score digital identities using Acuant's eDNA™ engine. Machine learning with graph intelligence helps you accurately find the best customers.

#### Frictionless Onboarding

Acuant's risk-based approach helps tailor the onboarding experience for each customer, automatically processing trusted users and passing the exceptions to manual review.

#### Global Coverage

Verify identity documents and provided forms in over 200+ countries and territories around the world. Access 300+ global sanctions & PEP lists and comply with global and regional AML regulations.

# Harness the Power of Acuant's Trusted Identity Platform

## IDENTITY PROOFING

### Document Verification

Upload & authenticate documents in seconds
