CYBERSECURITY FOR CHARITY

ALSID

Thinking differently begins with making a difference. With anti-goodies, we are ditching trinkets and choosing causes—from defending digital privacy to making this world a little greener. Alsid is partnering with four NGOs to make Cybersecurity for Charity a reality:

ANTI-GOODIES

Charities

- **Doctors of the World** is a human rights organization providing emergency and long-term medical care.

- **Electronic Frontier Foundation** (EFF), is a leading nonprofit defending digital privacy, free speech, and innovation for 30 years and counting.

- **Handicap International / Humanity & inclusion**, works alongside disabled and vulnerable people in situations of poverty and exclusion, conflict and disaster.

- **Planète Urgence** is a non-profit association recognized as a public utility for international solidarity and environmental protection.

Now comes your part.

Just scan the QR code of each NGO, fill out the form faster than you can say charity, and Alsid will donate $1 to the NGO.

```
4 NGOs = 4 scans from you

= 4 donations from Alsid = better world
```

This pledge is exclusively for cybersecurity professionals wanting to better the world. If you've read this far, chances are you're one of them.
