Qualys

You can't secure what you can't see or don't know

Unparalleled visibility, end-to-end IT, security and compliance for all your global IT assets

Example of a customizable, user-defined dynamic dashboard for tracking real-time progress of WannaCry remediation alerts

Qualys Cloud Platform

Identify and inventory all known and unknown assets on your global hybrid-IT environment

Get a real-time view of all critical vulnerabilities, malware, misconfigurations and compromised assets with six sigma accuracy

Automatically prioritize, patch and quarantine assets with one click

Consolidate your IT, security and compliance stack, and drastically reduce cost

About Qualys

Qualys, Inc. (NASDAQ: QLYS) is a pioneer and leading provider of cloud-based IT, security and compliance solutions with over 15,700 active customers in more than 130 countries, including a majority of each of the Forbes Global 100 and Fortune 100. Qualys helps organizations streamline and consolidate their IT, security and compliance solutions in a single platform and build security into digital transformation initiatives for greater agility, better business outcomes and substantial cost savings. The Qualys Cloud Platform and its integrated Cloud Apps (20 and counting) deliver businesses critical security intelligence continuously, enabling them to automate the full spectrum of auditing, compliance, and protection for IT systems and web applications across on premises, endpoints, cloud, containers, and mobile environments.

Cloud Platform Apps

AI **Asset Inventory**

Maintain full, instant visibility of all global IT assets – on premises, in clouds or mobile endpoints

SYN **CMDB Sync**

Synchronize asset information from Qualys into ServiceNow CMDB

CRI **Certificate Inventory**

Inventory TLS/SSL digital certificates on a global scale

VMDR **Vulnerability Management Detection & Response**

Continuously detect and respond to attacks

TP **Threat Protection**

Pinpoint your most critical threats and prioritize patching

CM **Continuous Monitoring**

Alerts you in real time about network irregularities

PM **Patch Management**

Streamline and accelerate vulnerability remediation

IOC **Indication of Compromise**

Threat hunting, suspicious activity monitoring, and malware family detection

CRA **Certificate Assessment**

Assess your digital certificates and TLS configurations

CI **Cloud Inventory**

Inventory public cloud workloads and infrastructure

CSA **Cloud Security Assessment**

Get full visibility and control across all public cloud instances

CS **Container Security**

Discover, track and continuously protect containers

WAS **Web Application Scanning**

Secure web applications with end-to-end protection

WAF **Web Application Firewall**

Block attacks and virtually patch web application vulnerabilities

PC **Policy Compliance**

Assess security configurations of IT systems throughout your network

SCA **Security Configuration Assessment**

Automate configuration assessment of global IT assets

PCI **PCI Compliance**

Automate, simplify and attain PCI compliance quickly

FIM **File Integrity Monitoring**

Log and track file changes across global IT systems

SAQ **Security Assessment Questionnaire**

Minimize the risk of doing business with vendors and other third parties

OCA **Out of Band Configuration Assessment**

Extend security and compliance to inaccessible assets

Qualys apps are fully integrated and natively share the data they collect for real-time analysis and correlation.
